

# What we offer

The Scottish SPCA's Animal WISE programme has four key themes. We need to **WATCH** interactions between humans and animals, making sure everyone is kept safe. We need to **INFORM** people that animals matter and instil that belief that they experience emotions and deserve to be shown compassion and empathy. We need to **SUPPORT** those who need it, particularly those who suffer from poverty, isolation and loneliness and use our expertise to tackle the link between animal cruelty and violent crime. Finally, we need to **ENCOURAGE** people to contact our animal helpline if they feel an animal is in danger, it is hurt or if someone needs help taking care of their animal.

The Scottish SPCA is here to support every animal and every person across every generation. Follow our journey to see how we can support you...
