ADVICE

Remember, remember 5 in November

1 Keep your pets inside after dark

Walk or let your pets out earlier in the day so you don't risk being caught off guard.

2 Muffle the noise

Close all windows and doors, and have music playing or the TV on during the display.

3 Check bonfire piles before use

Check no small animals are hiding inside your bonfire before lighting.

4 Keep calm and monitor changes

Carry on as usual but watch out for changes in your pet's behaviour.

5 Be there for your pet

Consider staying at home with your pet in case they need you.

Don't let bonfire night turn into a fright night
